

50 ml, Art.-Nr.: 300 063

with ecologically produced mare's milk perfume free, dye free

Due to its unique composition (proteins, amino acids, lactose, lipids and minerals) mare's milk is extremely beneficial to the skin.

Mare's milk

- provides the skin with valuable moisturizing substances.
- supports the natural acid/lipid protection of the skin.
- promotes the regeneration of stressed and functionally disturbed skin
- makes the skin soft and smooth
- soothes irritated, sensitive skin.

Mare's milk cream for daily skin care is recommended for

- dry skin lacking lipids and moisture
- sensitive, irritated skin
- stressed, overexerted skin

Mare's milk heals sick skin

(Report: BUNTE Nr. 24 dated 2004/06/03)

Significant improvement of the skin has been reported in patients suffering from neurodermitis after use of mare's milk (Rehab Clinic Graal Müritz study). Creams or a drink cure can also help

with other skin diseases.
